

MAKES COLLABORATION EASY

Realtime calendardoverview with full switching capability

ZYLINC TEAM CENTER

A lot of time is wasted looking for phone numbers, calling people who are not present or otherwise unable to answer calls.

Zylinec Team Center is the ideal way of managing the company's IP-phones in project groups, secretary

functionalities and other places in the company with the need of an efficient collaboration tool.

Using Zylinec Team Center you have a complete overview of colleagues' availability, letting you transfer calls and answer colleagues' phones using a pc.

Features

Quick overview of colleagues' availability.

User-defined shortcuts for operating the phone.

Automatic calendar update with absence functionality.

Absence function with user customizable preset subjects such as: "In a meeting", "Holiday" etc.

Add-on: Get a built-in SIP Softphone using your computer's speakers and microphone to make or receive calls

Place calls

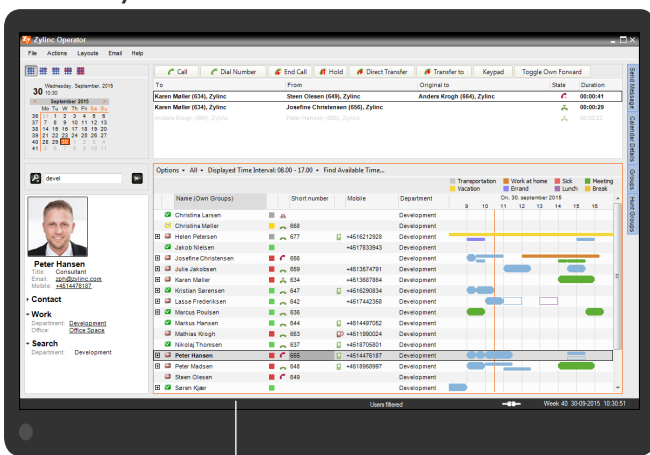

Answer calls

Automatic forward of calls

Manual forward of calls

Put calls on hold

Send text messages directly from Zylinec Team Center to a user's telephone.

Save 25 seconds per call

Compared to a conventional switchboard, companies in average save 5 seconds to find the right phone number, 5 seconds to place the call, and 15 seconds to avoid handling unanswered calls, when they use Zylinec Team Center.

Collaboration tool

Zylinec Team Center makes teamwork easy. You can send phone messages, emails and texts. Further-more, Zylinec Team Center has features to find the first free time slot for a group of people in their calendars - ideal for planing.
